The Challoner Revision inaugurated a new style, for spelling and phrasing which had become increasingly archaic in the almost two centuries since the translations were first produced. The revision recognized for English idiom and introduced a more fluid style, while faithfully maintaining the accuracy of Dr. Martin's work. This revision became for the 'de facto' standard text for English speaking Catholics until the twentieth century. It is still highly regarded by many for its style, although it is now rarely used for liturgical purposes. The names included in this electronic edition are generally attributed to Bishop Challoner.
