Assail - Ian C. Esslemont - 2014-08-05

This follow-up to Ian C. Esslemont’s Blood and Bone is sure to delight Malazan fans. Tens of thousands of years of ice is melting, and the land of Assail, long a byword for menace and inaccessibility, is at last yielding its secrets. Tales of gold discovered in the region’s north circulate in every waterfront dive and sailor’s tavern, and now countless adventurers and fortune-seekers have set sail in search of riches. All these adventurers have to guide them are legends and garbled tales of the dangers that lie in wait – hostile coasts, fields of ice, impassable barriers and strange, terrifying creatures. But all accounts concur that the people of the north meet all trespassers with the sword. And beyond are rumoured to lurk Elder monsters out of history’s very beginnings.

Into this turmoil ventures the mercenary company, the Crimson Guard. Not drawn by contract, but by the promise of answers: answers to mysteries that Shimmer, second in command, wonders should even be sought. Arriving also, part of an uneasy alliance of Malazan fortune-hunters and Letherii soldiery, comes the hard Fisher kel Tath. And with him is a Tiste Andii who was found washed ashore and cannot remember his past life, yet who commands far more power than he really should. Also venturing north is said to be a mighty champion, a man who once fought for the Malazans, the bearer of a sword that slays gods: Whiteblade. And lastly, far to the south, a woman guards the shore awaiting both her allies and her enemies. Silverfox, newly incarnated Summoner of the undying army of the T’lan Imass, will do anything to stop the renewal of an ages-old crusade that could lay waste to the entire continent and beyond. Casting light on mysteries spanning the Malazan empire, and offering a glimpse of the storied and epic history that shaped it, “Assail” is the final chapter in the epic story of the Empire of Malaz. **To My Arrogant Boss** - J. S. Cooper - 2021-01-01
To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I’ve ever met in my life. I know you think that you’re God’s gift to women, but I have a secret to let you in on: you’re not. You’re God’s gift to yourself. Get over your wanna-be cool surfer self and grow up. It thought it was time that someone addressed your big head and told you straight to your face that you’re not all that. Just because you have an Ivy league education doesn’t mean you’re the smartest man in the world. In fact, I’m not even sure if you would have gotten in if you didn’t have rich parents. Yes, I went there. Every woman doesn’t want to sleep with you and I’m sure you’re not even good in bed. And I’m someone that would know. From, Your Secret Not Admirer

**Constitutional Mythologies** - Alain Marciano - 2011-08-02
Our societies obviously rest on common beliefs. These “myths” are tools that help us to develop and build common identities; they form the structure around which societies function. This does not imply that these beliefs are “true,” in the sense that they would be supported by empirical facts. In social matters, myths have undoubtedly important functions to play even if no empirical facts support them. On the other hand, and precisely because they are not discussed, myths may be problematic: they may create illusions, conserve structures that are inefficient and unable to improve the situation of citizens. This is particularly true with constitutions. Constitutions are very important for societies: a constitution is a document — even in societies based on “unwritten” constitutions — which binds citizens together, creating unity among them, and which forms the framework within which our activities take place. As Nobel Prize laureate James Buchanan used to say: constitutions contain the rules of the social game we play in our everyday life. However, constitutions are not frequently debated by citizens. This is why we end up with common beliefs about these constitutions: they are above our heads, around us. We take them, their role, function, and nature as given. The purpose of this volume to investigate and challenge common constitutional myths. Featuring contributions from prominent economists, political scientists, and legal scholars, the chapters in this volume address such myths as “constitutions are binding social contracts,” “constitutions are economic documents” and “constitutions are legal documents.” Illustrating their analyses with historical and contemporary examples from the United States, Canada, and Europe, the authors build a multi-layered approach to understanding constitutions and their implications for social and political influence.

Contracts from Tensor Analysis and Differential Geometry - Tracy Y. Thomas - 2016-06-03
Concepts from Tensor Analysis and Differential Geometry discusses coordinate manifolds, scalars, vectors, and tensors. The book explains some interesting formal properties of a skew-symmetric tensor and the curl of a vector in a coordinate manifold of three dimensions. It also explains Riemann spaces, affinely connected spaces, normal coordinates, and the general theory of extension. The book explores differential invariants, transformation groups, Euclidean metric space, and the Frenet formulae. The text describes curves in space, surfaces in space, mixed surfaces, space tensors, including the formulae of Gaus and Weingarten. It presents the equations of two scalars K and Q which can be defined over a regular surface S in a three dimensional Riemannian space R. In the equation, the scalar K, which is an intrinsic differential invariant of the surface S, is known as the total or Gaussian curvature and the scalar U is the mean curvature of the surface. The book also tackles families of parallel surfaces, developable surfaces, asymptotic lines, and orthogonal ennupples. The text is intended for a one-semester course for graduate students of pure mathematics, of applied mathematics covering subjects such as the theory of relativity, fluid mechanics, elasticity, and plasticity theory.

Death Waits in the Dark - Mark Edward Langley - 2020-08-04

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys’ killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Scholars are applying the fruits of their research in Biblical and theological fields to their contexts to serve the needs of theological students and churches and their leaders. One of the most significant trends within this growth of global theological education is the increasing emergence of evangelical doctoral programs. Starting with a major consultation in Beirut in 2010, ICETE’s Doctoral Initiative has been working to provide resources to develop and equip these programs. This book contains the results of that work, including the Beirut Benchmarks for Research Doctoral Programs (2010), the Beirut Benchmarks for Professional Doctorates (2011), and a well-developed series of statements on best practices, which explain, amplify, and help apply the Benchmarks. Written out of a commitment to excellence, and a belief that such excellence is honouring to God, and of service to His Church, this book will help benefit doctoral programs, students and supervisors working both in the Majority World and the West.
