An innocent man is days from execution. Only a guilty man can save him. Travis Boyette is a murderer. In 1998, in the small East Texas city of Sloan, he abducted, raped, and strangled a popular high-school cheerleader. He buried her body where it would never be found, then watched and waited as police and prosecutors arrested Donte Drumm, a black local football star with no connection to the crime. Tried, convicted, and sentenced, Drumm was sent to death row. Nine years later, Donte Drumm is four days from execution. Over 400 miles away in Kansas, Travis also faces death, suffering from an inoperable brain tumour. At long last, he decides to do what's right. After years of silence, he is ready to confess. But the law doesn't want to hear it. As far as they're concerned, they've got their man. So how can a guilty man convince lawyers, judges and politicians that the man they're about to execute is innocent?

And that's exactly the way he likes it, except when he doesn't. Every week in the Los Angeles Times and Chicago Tribune (and now and then in many other papers), Erskine distills, mocks, and makes us laugh at the absurdities of suburban fatherhood. And now, he's gathered the very best of these witty and wise essays—and invited his kids (and maybe even Posh) to annotate them with updated commentary, which they promise won’t be too snarky. Then one cool October morning he rose early, drove into town, walked into the church, and calmly shot and killed his pastor and friend, the Reverend Dexter Bell. As if the murder weren't shocking enough, it was even more baffling that Pete's only statement about it—to the sheriff, to his lawyers, to the judge, to the jury, and to his family—was: "I have nothing to say." He was not afraid of death and was willing to take his motive to the grave.

The Cadaver King and the Country Dentist - Radley Balko - 2018-02-27
A shocking and deeply reported account of the persistent plague of institutional racism and junk forensic science in our criminal justice system, and its devastating effect on innocent lives. After two three-year-old girls were raped and murdered in rural Mississippi, law enforcement pursued and convicted two innocent men: Kennedy Brewer and Levon Brooks. Together they spent a combined thirty years in prison before finally being exonerated in 2008. Meanwhile, the real killer remained free. The Cadaver King and the Country Dentist recounts the story of how the criminal justice system allowed this to happen, and of how two men, Dr. Steven Hayne and Dr. Michael West, built successful careers on the back of that structure. For nearly two decades, Hayne, a medical examiner, performed the vast majority of Mississippi’s autopsies, while his friend Dr. West, a local dentist, pitched himself as a forensic jack-of-all-trades. Together they became the go-to experts for prosecutors and helped put countless Mississippians in prison. But then some of those convictions began to fall apart. Here, Radley Balko and Tucker Carrington tell the haunting story of how the courts and Mississippi’s death investigation system -- a relic of the Jim Crow era -- failed to deliver justice for its citizens. The authors argue that bad forensics, structural racism, and institutional failures are at fault, raising sobering questions about our ability and willingness to address these crucial issues.

The Cadaver King and the Country Dentist - Radley Balko - 2018-02-27
A shocking and deeply reported account of the persistent plague of institutional racism and junk forensic science in our criminal justice system, and its devastating effect on innocent lives. After two three-year-old girls were raped and murdered in rural Mississippi, law enforcement pursued and convicted two innocent men: Kennedy Brewer and Levon Brooks. Together they spent a combined thirty years in prison before finally being exonerated in 2008. Meanwhile, the real killer remained free. The Cadaver
is approached by an elegant, mysterious woman working for an even more
system allowed this to happen, and of how two men, Dr. Steven Hayne and
Dr. Michael West, built successful careers on the back of that structure. For
nearly two decades, Hayne, a medical examiner, performed the vast
majority of Mississippi's autopsies, while his friend Dr. West, a local dentist,
pitched himself as a forensic jack-of-all-trades. Together they became the
go-to experts for prosecutors and helped put countless Mississippians in
prison. But then some of those convictions began to fall apart. Here, Radley
Balko and Tucker Carrington tell the haunting story of how the courts and
Mississippi's death investigation system -- a relic of the Jim Crow era --
failed to deliver justice for its citizens. The authors argue that bad forensics,
structural racism, and institutional failures are at fault, raising sobering
questions about our ability and willingness to address these crucial issues.

case—promising lots of online research but little action—doesn’t appeal to
Bernie, while it seems perfect for Victor, who is not cut out for rough stuff.
But Victor disappears in a rough-stuff way, and when he doesn’t show up at
his mom’s to light the Hanukkah candles, she hires Chet and Bernie to find

Except he also claims that the assault was not premeditated and that he didn’t know the identity of his victim. With a man as notorious as Harry McNamara, who was just found innocent in a highly sensationalized fraud trial, the detectives cannot help but wonder: Was this really a random act of violence? Was Julie really powerless to stop JP? When Harry’s many sins are unveiled to include corruption, greed, and betrayal, nothing is for sure. This gripping psychological thriller will have you questioning, who—of Harry, Julie and JP—is really the guilty one? Paris and Fiona Barton.

Thirteen-year-old Theodore Boone faces his biggest challenge when a new case opens up in Strattenburg and Theo is the prime suspect when the police discover some stolen computer equipment in his locker.
