Comets, Popular Culture, and the Birth of Modern Cosmology - Sara Schechner - 1997

A lively investigation into the boundaries between popular culture and early-modern science. Until the 17th century, all members of society dreaded comets as heaven-sent portents of disaster. This book leads to the conclusion that long-held views of comets as divine signs were not over-turned by astronomical discoveries, but became the foundation on which modern cosmology was built. 53 photos.

Managing Sport - Sean Hamil - 2012-10-22

"Contemporary sport is shaped by wider society. Anybody working in sport today must be aware of the broader social and cultural context within which sport operates if they are to be effective as managers or professionals. This is the first book written especially for sport management students to examine the wider social and cultural environment and to fully explain the key issues and practical implications for everyday sport management. Written by a team of leading international experts on sport management and sport in society, the book explores important topics such as: - Corporate social responsibility in sport - Race - Gender and sexuality - Sport and the media - Globalisation - Politics and policy - Social class, social capital and social exclusion Each issue is examined from the perspective of the manager or practitioner in sport, and each chapter includes a range of useful features, such as case-studies and self-test questions, to encourage the reader to think critically about the role of sport in society and about their own professional practice. This is the first sports management textbook to be based on the assumption that a more socially aware manager is a more effective manager and it should be essential reading for all sport management students"--

Sport and Discrimination - Daniel Kilvington - 2017-01-20

Despite campaigns to educate and increase awareness, discrimination continues to be a deep-rooted problem in sport. This book provides an international, interdisciplinary and critical discussion of various forms of discrimination in sport today, with contributions from world-leading academics and high-profile campaigners. Divided into five sections, the book explores racism, sexism, homophobia, disability, and the role of media in both perpetuating and tackling discrimination across a variety of sports and sporting events around the world. Drawing on examples from football, rugby, cricket, tennis, climbing, the Olympics and the Paralympics, it offers a critical review of current debates and discusses the latest empirical research on the changing nature of discrimination in sport. Taking into account the experiences of athletes and coaches across all performance levels, it presents recommendations for further action and directions for future research. A timely and challenging study, Sport and Discrimination is essential reading for all students and scholars of sports studies with an interest in the sociology of sport and the relationship between sport, society and the media.

Football Club Management - Ian Lawrence - 2018-01-29

The rapid global growth of the sport industry has prompted the need for a more commercial approach to the management of sport clubs. This book is the first study of its kind to focus on the management of professional football clubs, providing a real-world insight into management principles and their practical application. The international commercialisation of football has led to a fundamental transformation of the industry's management practices, given the financial rewards of success and the high price of failure. This book presents a critical examination of this transformation, questioning why clubs are increasingly adopting management strategies from other industries. Each chapter analyses the role played by a key leadership figure within a club, such as the owner, chief executive officer (CEO), chief financial officer (CFO), chief operating officer (COO), director of football (DoF), and head coach. Full of exclusive interviews, case studies and examples of best practice, this book sheds new light on the challenges of working in this extraordinarily high-pressure environment. Football Club Management: Insights from the Field is fascinating reading for all those working in or studying the management, marketing or administration of football.

Coaching The Coach - Richard Seedhouse - 2007-11

This book is more than just a common session guide or book of drills. It expands on why you choose a drill, how

plans you want but without reading this book you will not know what you are trying to coach, why, and how. It will question your thoughts and help you learn and develop as a coach. If you are a parent taking up the reigns of a new team or a Level 1 coach this book is for you. As you read through you will understand more about what coaching your players really is and means. It is the first book you should read and the one book you should keep by your side. It is written to help you and all grassroots coaches to coach. Richard Seedhouse is an FA tutor holding the UEFA B (Level3) Coaching Licence and the Level 2 goalkeeping Coaching Certificate. He is an FA Centre of Excellence coach with Coventry City Ladies and has coached the youth team at Nuneaton Borough FC. Richard maintains his grassroots links as the Football Development Officer at Coundon Court FC, recent winners of the FA Charter Standard Development Club of the Year award for the Midlands Region. Testimonies "The prompting of questions and challenging the coach to design progressions and sessions will fit in with current work around coach development and education" Andy Poole, UEFA A Licence coach and the FA Regional Coach Development Manager, talking about how the book can help Trevor Brooking and the FA's new initiative on coach development. "Whenever we take on any new Level 1 coach at our sports centre I will make sure they know about this book and recommend they read it" Terry Harvey, UEFA B coach and Sports Centre Manager. "I have read many coaching manuals which show how to set up, organise and the key points to look for. However, this book shows what the coach can do to improve or improvise the sessions. Excellent for coaches just starting out on their coaching career" David Busst, UEFA A Licence coach, Coventry City FC Football Coaching in the Community Manager. "Easy to read and with a logical approach this book will give the coach the confidence to get involved with their players and actually begin to coach them" Michelle Hickmott, Level 2 Coach and England Ladies International at U21 and U23 and Birmingham City Ladies FC in the Premier League. "I read this book just before my level 2 course and found it a great help as it actually talked about coaching the player's the same specific points as coached on the course" Ty Power, Level 1 coach currently taking the level 2 coaching certificate.

'Race', Ethnicity and Racism in Sports Coaching - Steven Bradbury - 2020-05-31

In recent years there has been a steady increase in the racial and ethnic diversity of the playing workforce in many sports around the world. However, there has been a minimal throughput of racial and ethnic minorities into coaching and leadership positions. This book brings together leading researchers from around the world to examine key questions around 'race', ethnicity and racism in sports coaching. The book focuses specifically on the ways in which 'race', ethnicity and racism operate, and how they are experienced and addressed (or not) within the socio-cultural sphere of sports coaching. Theoretically informed and empirically grounded, it examines macro-(societal), meso- (organisational), and micro- (individual) level barriers to racial and ethnic diversity as well as the positive action initiatives designed to help overcome them. Featuring multi-disciplinary perspectives, the book is arranged into three thematic sections, addressing the central topics of representation and racialised barriers in sports coaching; racialised identities, diversity and intersectionality in sports coaching; and formalised racial equality interventions in sports coaching. Including case studies from across North America, Europe and Australasia, 'Race', Ethnicity and Racism in Sports Coaching is essential reading for students, academics and practitioners with a critical interest in the sociology of sport, sport coaching, sport management, sport development, and 'race' and ethnicity studies.

Improving Gender Equity in Sports Coaching - Leanne Norman - 2021-08-13

The sport coaching profession has historically been and continues to be a White male-dominated occupation and this remains a global issue. This imbalance persists despite an improvement in wider social attitudes and legislation towards equality and diversity within many societies, and despite the action by sporting organisations and national governing bodies. Within the research literature, the underrepresentation of women in sport coaching is a well-documented issue with a number of research studies highlighting the experiences and impact of being in the minority for women coaches. The issue of gender inequity in sport coaching is a long-standing one and shows little sign of changing significantly anytime soon. Therefore, a new approach is needed, one that draws on the knowledge and evidence we have to create actionable, sustainable, deep-rooting interventions that challenge the issue of gender equity at its very core. The overall purpose of Improving Gender Equity in Sports Coaching is to take an action or forward-thinking approach about what works, or could work, to improve the recruitment, development, or promotion of women sport coaches. The book brings together a global group of esteemed scholars working in this subject area. In this book, we have brought together not just the insight but also a collection of strategies and recommendations as to how this research could be or has been utilised to make our sport coaching environment places where all coaches feel as though they belong. As such, this ground-breaking book is a must read not just for students and researchers of gender equity in sport but also for policy

Advances in Coach Education and Development - Wayne Allison - 2016-03-31

This book highlights the latest advances in coach education and development through collaborative research co-ordinated by the English Football Association, the only national governing body of sport to run a coaching research programme. Advances in Coach Education and Development presents the first set of studies generated by this programme that display how research has informed policy and practice within the FA. Divided into three parts, each investigates an aspect of this programme such as the FA's coaching education and development provision, its commitment to developing the developer, and how its coaches put their knowledge into practice. Each chapter includes sections that examine current issues, suggest considerations for other governing bodies and pose key questions including: What can other governing bodies learn from the FA's programme? What is the best way to capture and compare different coaching systems? How can other organisations optimise success within their coach education and development programmes? How can future research continue to unpack and understand the complex role of coach educators? Bringing together a unique set of studies covering every level of football, from elite to grassroots, this book is essential reading for any serious sports coaching student, researcher or coach educator.

Know the Score - Robert King - 2009-11

Create your own destiny, and leave your own legacy in the world of football, with this new spin on football management. All you need is a pen, some paper, this book and a good memory, and you'll be on your way to winning trophies from 19 leagues, in 10 countries, over 2 continents. When you have proved that your country can no longer hold you back, then show who is boss in European and South American club competitions. Then, when all is said and done, and its time to put down your pen, and fold up your piece of paper, you can look back on the glory (or devastation) that you left behind, sit back, put your feet up and be safe in the knowledge that you KNOW THE SCORE!!!

Legacy, Sustainability and CSR at Mega Sport Events - Pierre Lienhard - 2014-07-05

The UEFA European Football Championship 2008™ (EURO 2008) was the largest sports event ever organized in Switzerland. The host nations Austria and Switzerland emphasized the sustainability of the event. Through their analysis the authors argue that well-known principles of sustainability and policy were not uniformly implemented for the EURO 2008. Nonetheless, this book shows how, in Switzerland, a legacy was created through the implementation of corporate governance and social responsibility policies by UEFA, the Swiss Government and the Swiss Football Association. This book offers an unprecedented resource for sports practitioners and researchers. It provides a wealth of data based on the study of existing scholarly literature, key strategic and conceptual documents as well as exclusive interviews with high-level executives involved in the organization of EURO 2008.

The UEFA European Football Championship 2008™ (EURO 2008) was the largest sports event ever organized in Switzerland. The host nations Austria and Switzerland emphasized the sustainability of the event. Through their analysis the authors argue that well-known principles of sustainability and policy were not uniformly implemented for the EURO 2008. Nonetheless, this book shows how, in Switzerland, a legacy was created through the implementation of corporate governance and social responsibility policies by UEFA, the Swiss Government and the Swiss Football Association. This book offers an unprecedented resource for sports practitioners and researchers. It provides a wealth of data based on the study of existing scholarly literature, key strategic and conceptual documents as well as exclusive interviews with high-level executives involved in the organization of EURO 2008.

Sport and Contested Identities - David Hassan - 2017-09-07

Identity is one of the most theorised and contested of all sociological concepts and sport is fertile ground for an examination of its complexities. This book offers a wide-ranging and up-to-date exploration of the sport-identity nexus, drawing examples from a variety of sporting contexts and geographical locations, and incorporating a diversity of perspectives including players, spectators, officials, the media and policy-makers. Covering key themes in the social scientific study of sport such as gender, ethnicity and national identity, it considers the impact of social, cultural and technological change on the formation of sporting identities. Including original real-life case studies, each chapter makes a unique contribution to our understanding of the complex relationship between sport and identity. As this relationship is embedded within the broader structures of power that frame social inequality, this book also poses important questions about the role of sport-related initiatives in our society today, as well as in years to come. Sport and Contested Identities: Contemporary Issues and Debates is fascinating reading for all students and scholars of the sociology of sport.

The Paradise of Football Talents - Jens Peter Sørensen - 2021-06-08

A recent investigation on the topplayers mindset shows that players with the experience from 6 to 49 matches underperform significantly. They simply waste their talents. What is the solution to this important challenge? One answer is to "Use brain smart learning instead of unconscious training". The learning approach creates reflexions. and as a consequence, educated and edicated players. Let us create an environment where hearts and brains interact and challenges the idea that football is forward oriented and understood backwards. We deal with this statement in the book. We hope to show how more focus on the importance of strong relations based upon trust between managers, coaches and the players in the squad can improve the talent development climate. Quoting Martin Luther King: Fate is to take the first step even if you cannot see the whole staircase. Everybody can start now and change everything in a moment. We have OPENED THE PANDORA BOX and we will invite you to a life-giving dialogue about The most beautiful game in the World. Let Us find new beneficial ways in respect for those who gives life and energy to reach the Paradise of Football.

Sports Law in Spain - Juan de Dios Crespo Pérez - 2021-08-20

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Spain deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policy makers access to sports law at this specific level. Lawyers representing parties with interests in Spain will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law.

British Asians, Exclusion and the Football Industry - Daniel Kilvington - 2016-02-22

This book examines the exclusion of British Asians from the football industry, drawing on a wealth of empirical work with players, coaches, scouts, managers, fans, anti-racist organisations, community officers, and key stakeholders. It adopts a critical race theory (CRT) perspective to offer a platform for excluded communities to discuss their experiences and offer their advice, guidance and criticisms. Notions of whiteness, intersectionalities and gender are explored and filter throughout. This book highlights historical and contemporary reasons for the British Asian exclusion from football, critically examines a number of tried and tested inclusion strategies, and offers recommendations for reform to help achieve equality and inclusion. The research aims to: dehomogenise British Asian football experiences offer the counter-narratives of British Asian male and females to challenge master-narratives comprehend the importance of intersectionalities understand identity shifts and cultural changes challenge socio-cultural stereotypes and racial myths highlight contemporary manifestations of racisms in football at all levels examine the role 'parallel football' environments have played in the exclusion cast a critical eye over inclusion initiatives promote recommendations for reform which are born out of empirical research As long as marginalized groups, such as British Asians, are excluded from a field of popular culture, in this case football, it is a topic that demands attention, deserves investigation and requires solutions. It is hoped that this book can be of use to students, researchers and policymakers who share an active interest in football, exclusion and equality.

There's a Golden Sky - Ian Ridley - 2011-10-01

With 2011 celebrating the Premier League's 20th anniversary, it's time to take stock of a phenomenon that has changed English football - and English society - forever. Ian Ridley took a long hard look at the game back in the 1980s against a backdrop of recession, strikes and football hooliganism. In this new book he examines just how far the game has come, sucking in players and money from around the globe and providing fame, fortune and hours of pleasure in return. It includes: - Interviews with major players such as the chairman of the FA, top-flight managers, and the broker who sold Chelsea to Abramovich. - A behind-the-scenes look at clubs such as Fulham

game, its changing profile and the growing gap between the Premier League and the rest of the game. As he examines the changes that have occurred over the last twenty years, Ridley seeks to discover if the soul of the game still exists. With his eye for detail, his knack for voices and his incisive intelligence, he has woven together a rich and fascinating story of football's metamorphosis from social outcast to favourite child.

Contemporary Leadership in Sport Organizations - David Scott - 2021-11-03

In a quickly growing and evolving society, organizations at all levels face ongoing challenges and complexities that require specific leadership skills. Contemporary Leadership in Sport Organizations, Second Edition With HKPropel Access, brings together research on leadership—both within and outside of sport settings—to provide comprehensive knowledge of skills and practices relevant to the sport industry. With sport-specific examples, students will learn an effective approach to leadership thought, strategy, and action to apply in recreational, interscholastic, intercollegiate, and professional sport organizations as well as the rapidly growing esports industry. Students will first learn the historical and foundational concepts of leadership, defining what effective leadership is and the primary outcomes of good leadership. Contemporary thought and leadership approaches for present-day challenges are then presented, bringing concepts to life within the unique contexts of sport organizations of all levels and types. Modern leadership concepts that are explored include emotional intelligence and its role in developing authentic leadership, data-informed decision making and problem solving, behaviors and actions that are most effective in crisis situations, and the leadership-as-practice movement. Updates in this edition include the following: Expanded content on leadership for achieving diversity, equity, and inclusion in sport organizations, including new content on LGBTQ+ research in sport Content on global leadership in sport, including the emergence of esports and sport as a tool for social change Discussion of ethical decision making and the challenges and responsibilities for leaders in the development of the values and culture of an organization New student learning activities, delivered through HKPropel, are designed to engage students in a learning experience that turns the principles learned into practical leadership skills. Case studies (some of which include video examples) expand on chapter content and present real-world examples of sport leadership across a broad range of roles. These contain open-ended discussion questions that encourage students to think critically about the cases and about their own future careers. Activities encourage students to put research into practice, while interactive branching scenarios immerse students in the decision-making process, applying strategies presented in the book to navigate through each simulation to discover the most optimal outcome. Modern sport organizations at all levels are evolving into increasingly complex and diverse entities that require adaptable and effective leaders. Contemporary Leadership in Sport Organizations provides the theoretical knowledge and practical skills to inspire students to become successful leaders in the sport industry. Note: A code for accessing HKPropel is not included with this ebook but may be purchased separately.

The Legacy of Bosman - Antoine Duval - 2016-05-25

In December 1995, the Court of Justice of the European Union delivered its judgment in its most famous case to date: the Bosman case. Twenty years later, this book explores in detail how this landmark judgment legally and politically transformed the relationship between the European Union and sport. Written by leading academics in the field, the ten contributions in this book reflect on how Bosman fundamentally shaped the application of EU law to sport and its transformative effects on sports governance. The book's innovative perspectives on the Bosman ruling makes it important reading for scholars, practitioners and policy-makers concerned with EU law and Sports law. With a foreword by Prof. Dr. Carl Otto Lenz, Advocate General at the Court of Justice in the Bosman-case. Dr. Antoine Duval is Senior Researcher for International and European Sports Law at the T.M.C. Asser Instituut in The Hague. He holds a Ph.D. on the interaction between Lex Sportiva and EU Law from the European University Institute in Florence, where he was the conveyor of the Transnational Law Working Group. Prof. dr. Ben Van Rompuy is a senior researcher at the T.M.C. Asser Instituut, where he heads the ASSER International Sports Law Centre, and is Visiting Professor of Competition Policy at the Free University of Brussels (VUB). He holds a Ph.D. in law from the VUB and held visiting scholar positions at Georgetown University and New York University. The book appears in the ASSER International Sports Law Series, under the editorship of Prof. Dr. Ben Van Rompuy, Dr. Antoine Duval and Marco van der Harst LL.M.

Football Traumatology - Piero Volpi - 2015-08-05

This book provides a comprehensive guide to the evaluation, treatment, and rehabilitation of musculoskeletal injuries commonly experienced by football (soccer) players. It will be of particular value for orthopedists and sports medicine practitioners, and will provide the information required by trainers and medical staff regarding the traumatic lesions associated with the sport. It is also anticipated that the book will assist in reducing the risk of trauma in footballers. The new edition has been revised to reflect advances in knowledge and practice and will be more valuable than ever, given that the risk of trauma continues to increase owing to the intensity and speed of modern football, the current training methods, and technical and tactical innovations. Injuries are a major

rehabilitation. The overviews provided in this book will help in delivering such care.
